

M. NURI SHAKOOR

AI SYSTEMS ANALYST | AI STRATEGY & INTEGRATION CONSULTANT | HUMAN-AI WORKFLOW ARCHITECT

New York, NY | ai_consultant@mnshakoor.com | (646) 657-8172 | portfolio.mnshakoor.com | quanta-analytica.com

PROFESSIONAL PROFILE

AI systems analyst and technology consultant with 20+ years across information technology, systems analysis, data analytics, technical research, government contracting, security risk management, and emerging AI technologies. Specializes in human-in-the-loop AI workflows integrating LLMs, structured data, APIs, analytical frameworks, evidence validation, automation, and human review for research, risk, compliance, intelligence, and decision support.

CORE AI & DIGITAL TRANSFORMATION COMPETENCIES

- AI Strategy & Systems: AI strategy and implementation, AI systems analysis, human-centered AI, HITL systems, workflow architecture, use-case development, AI-assisted decision support.
- Generative & Agentic AI: LLMs, agentic workflow design, LLM orchestration, custom GPT development, prompt engineering, AI personas and knowledge bases.
- AI Analysis & Assurance: AI-assisted research and OSINT, NLP, LLM evaluation, output verification, evidence provenance, source validation, confidence assessment.
- Data, Governance & Adoption: OpenAI API, Python, R, SQL, Tableau, Power BI, responsible AI, process automation, technical documentation, SOPs, user training.

PROFESSIONAL EXPERIENCE

AI Systems & Strategy Consultant / Independent Contractor

2023-Present

Quanta Analytica / MNS Consulting | Remote

- Design human-in-the-loop AI systems and analytical workflows integrating LLMs, structured data, APIs, analytical frameworks, evidence validation, and analyst review.
- Develop custom GPTs, AI personas, prompt architectures, knowledge bases, and structured LLM workflows supporting research, risk, compliance, NGO security, media analysis, and editorial operations.
- Translate organizational requirements into AI-enabled workflows, application concepts, governance controls, technical documentation, SOPs, and training resources.

Global Security Data Analyst & AI Systems Integration Specialist

2021-Present

ARAC International Inc. | Remote

- Lead AI-assisted research and analytical workflows supporting geopolitical risk, conflict analysis, governance, humanitarian analysis, information integrity, and security risk management.
- Developed and operationalized the Quanta Analytica Process (QAP), integrating evidence management, structured analytic techniques, AI-assisted research, scenario development, confidence assessment, and decision-support reporting.
- Design human-machine analytical processes combining structured datasets, OSINT, LLM-assisted research, analyst adjudication, and evidence-based reporting.

AI Integration Consultant & Systems Research Consultant

2023-Present

Lladner Business Solutions, LLC | Remote / New York, NY

- Design AI-enabled research, documentation, compliance, risk-management, knowledge-management, dashboard, and reporting workflows.
- Translate business and analytical requirements into practical LLM-enabled workflows, custom GPT tools, prompt libraries, and reporting systems.

Special Projects Research Analyst & Data Visualization Specialist - U.S. Government Contractor

2005-2017

Veracity Engineering LLC | Washington, DC

- Supported FAA and National Airspace System modernization through systems research, requirements analysis, data validation, analytics, technical documentation, logistics analysis, and decision-support reporting.
- Developed analytical frameworks, dashboards, technical reports, white papers, briefing materials, and performance-monitoring tools for federal program offices and multi-contractor teams.

IT Technical Support Analyst & Systems Documentation Specialist - U.S. Government Contractor

2000-2005

Lockheed Martin / CSC / DynCorp International / KenRob Associates | Washington, DC

- Supported federal IT, network, logistics, help-desk, data-management, access-control, continuity, systems documentation, asset management, and workflow-improvement operations.

SELECTED AI & DIGITAL SYSTEMS PROJECTS

- Quanta Analytica Process (QAP): Human-AI analytical methodology integrating evidence management, structured analytic techniques, AI-assisted research, scenarios, confidence assessment, QA, and decision-support reporting.
- Quanta Conflict Signal Workbench: AI-assisted conflict-analysis workflow integrating event data, signal detection, evidence validation, analyst adjudication, indicators, scenarios, and reporting.
- ARAC Global Stability Analytics Dashboard: Governance, fragility, and stability analytics with documented interpretation and decision-support workflows.
- MOSAIC Displacement Signal Console: IOM DTM-based displacement monitoring, signal detection, trend analysis, humanitarian access context, and analyst review.
- Africa Conflict Exposure Monitor: ACLED-based conflict analytics requirements covering interactive mapping, event taxonomy, Admin1/regional analysis, multi-year trends, and exports.
- AI-Assisted Data Analysis & Data Journalism Framework: Standardized workflow for data stories, geospatial products, AI-assisted investigations, visualization, provenance, verification, and publication-ready outputs.
- OpenAI GPT Store Contributor & Digital Navigator: Custom GPT assistants and AI governance/media-literacy content for sector-specific research and operational workflows.

TECHNICAL SKILLS

- Generative AI: ChatGPT, OpenAI API, custom GPTs, Anthropic Claude, Google AI Studio, LLM configuration, prompt architecture, AI personas, knowledge-base design.
- AI & Analysis: NLP, content analysis, sentiment analysis, AI-assisted research, OSINT, LLM evaluation, AI output validation, structured analytic techniques, workflow automation.
- Data & Visualization: Python, R, SQL, Excel, Tableau, Power BI, data curation, data quality assurance, dashboard development.
- Systems & Governance: API integration, HTML, requirements analysis, technical documentation, responsible AI, HITL controls, evidence provenance, source validation, NIST/ISO-aligned workflows.

EDUCATION & PROFESSIONAL CREDENTIALS

- Security Risk Management Professional, INSSA SRMP-R / SRMP-C
- Open-Source Intelligence, Basel Institute on Governance
- Institute for Economics & Peace, Positive Peace Ambassador (April 2022 Cohort)
- ITIL 4 Foundations, Technical Institute of America, 2017
- Digital Marketing, Borough of Manhattan Community College, 2017
- Information Technology: Network Design (CCDA), University of Maryland University College, 2003
- Microsoft Certified Professional & CompTIA A+, ASM Educational Center, 1999
- Interdisciplinary Studies, University of Virginia, 1985-1987
